

Soft Play

The soft play set below has 20 pieces of licorice allsorts soft play. When a customer hires it they also get some pop up tents and tunnels, 6 of the happy hopperz and twice as many mats as are pictures. There are square, rectangle, crescent, right angled and wedge shapes.

Make a PIES table and devise games for each area of PIES - can you think of some more things we could make with the shapes? We've tried a car, house & boat.

I will try to arrange a big empty room that we can try some of these out in!
